DETAILED ACTION

Allowable Subject Matter

Claims 1-16 are allowed.

The following is an examiner's statement of reasons for allowance:

As to Claims 1 and 11, the prior art of record taken along or in combination, fails to disclose or render obvious sampling means for determining at least two average sample values (A and C) for each of two areas of said modulated illumination field respectively and evaluation means for determining whether the value | A-C | is greater than a threshold value, in combination with the rest of the limitations of the claim.

As to Claim 6, the prior art of record taken along or in combination, fails to disclose or render obvious sampling means for determining at least two average sample values (A, B and C) for each of two areas of said modulated illumination field respectively and evaluation means for determining whether the value |A-B|, |A-C|, or |B-C| is greater than a threshold value, in combination with the rest of the limitations of the claim.

As to Claim 16, the prior art of record taken along or in combination, fails to disclose or render obvious sampling means for obtaining a plurality of sample values of said modulated illumination field, and evaluation means for determining an overall alignment quality by comparing a width of a histogram generated by the plurality of sample values with a threshold value, in combination with the rest of the limitations of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. LaeHoty et al (US 6,898,377) disclose a method and apparatus for calibration of light-modulating array.
